

our life has been so less stressful with the do not call , ,as a  
older citizen trying to get to the phone only to be intimidated by  
a telemarketer, at all hours day and nite.you are waiting for a call  
from your doc.he can't get thru because your line is tied-up with  
someone you don't want to talk too, please ,please don't let them  
back on
